FOR BUILDING DEPARTMENT PERMITS

ROLE OF THE PROPERTY OWNER: The owner of the property is responsible for the completeness of the plans and conformance to construction code standards. A Contractor is an agent for the property owner and, as such, has the authority to make changes to the project.

ROLE OF THE BUILDING DEPARTMENT: The plan review and inspection process of the Building Department is designed to achieve substantial compliance with the California Building Code. This code is a minimum construction standard.

GENERAL INFORMATION: Issuance of a permit or prior inspection approval based on plans and/or other submitted data does not preclude the Building Official from requiring the correction of errors that may be contained in these documents. (See 1998 California Building Code Section 106.4.3).

Generally, a permit is valid for 2 years (3 years in the Tahoe basin) and is renewable with progress shown. Since California Building Code prohibits the occupancy or use of a structure prior to final inspection approval, renewal of a permit for a separate structure requires a signed statement that the structure is neither being occupied nor used.
